## PERFORMANCE

6/30/17

Note: Returns for periods of one year or longer are annualized.

## PRODUCT DESCRIPTION

Our investment philosophy focuses on extracting value from enduring inefficiencies caused by investor behavior that creates opportunity for an approach that focuses on attractive valuation, low price volatility, consistent/stable growth, and the long-term compounding advantages provided by downside protection. Our quantitative and fundamental blended investment process helps us to identify these types of companies and build portfolios that exhibit these characteristics in our attempt to provide our clients longer-term outperformance with less risk.

Sawgrass employs a quantitative and fundamental blended approach to select stocks for our Diversified Large Growth portfolios. The goal of our investment process is to create portfolios with an attractive long-term upside participation/downside protection balance.

The process begins with a sector specific quantitative scoring of a 900-1000 stock universe. Our proprietary modeling system eval-

uates twenty four factors contained in six groupings including business valuation, equity valuation, profitability, earnings quality, price volatility, and sales, earnings, and margin stability.

Our fundamental research process is then used to distinguish among the most intriguing candidates for portfolio inclusion based on a qualitative assessment of company specific attributes, growth prospects, and risk contribution. This process flows in five general steps and includes a detailed review of the quantitative scoring, financial statement analysis, evaluation of management growth presentation, review of analyst research and estimate revisions, and a risk/reward analysis.

This blended approach helps us stay focused and consistent in building the attractively valued, profitable, lower volatility growth portfolios that we believe provide the best foundation for longer term outperformance on both an absolute and risk adjusted basis.

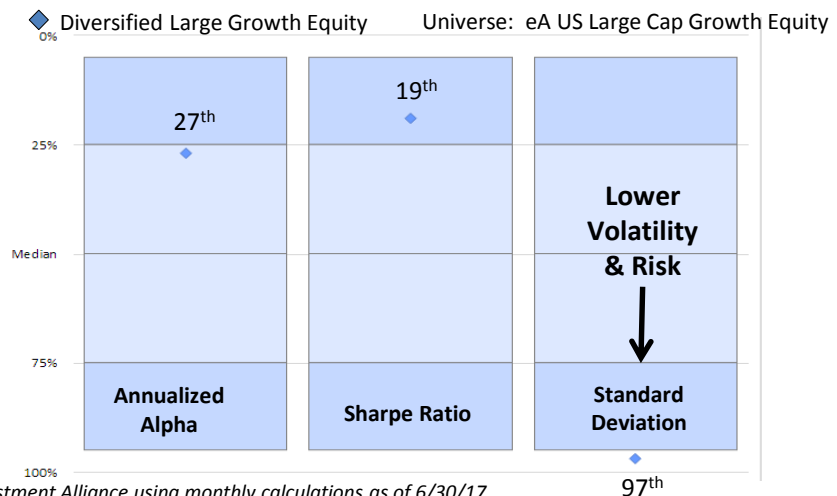

## TOP 10 STOCKS

Apple	5.3
Alphabet	5.1

## PERFORMANCE DISCLOSURES

Sawgrass Asset Management, LLC. (Sawgrass) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. Sawgrass has been independently verified for the periods 31 March 1998 through 31 December 2016. The verification report is available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS® standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS® standards. Verification does not ensure the accuracy of any specific composite presentation.

Sawgrass is a 100 percent employee-owned Registered Investment Advisor whose primary focus is to provide institutional investment management services.

Gross returns do not reflect the deduction of investment advisory fees but do include transaction fees. Gross and net returns include the reinvestment of all dividends and income. Net of fee performance was calculated by reducing the actual management fee charged to clients, or if part of a balanced account by reducing the highest management fee charged, in accordance with the Diversified Large Growth Equity strategy fee schedule. Prior to 12/31/2015, the highest management fee was utilized to calculate net-of-fee performance.

Performance is in U.S. dollars. Prior to 12/31/2010, accounts were removed from the composite for the month in which a significant flow exceeded 30% of account value. A comprehensive list and description of the firm's composites and additional information regarding policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

Past performance does not guarantee future results. Investments are subject to risk and may lose value.

**Information Specific to the Diversified Large Growth Equity Product:** As of 6/30/17, this composite was comprised of 79 accounts valued at \$1.97 billion. Assets in this product represent 50% of the firm's total assets under management. The three-year standard deviation for this product and its benchmark was 9.6% and 11.0%, respectively. This composite's creation date was 3/31/98 and its minimum account size is currently \$1 million. Total product assets in the Diversified Large Growth space equal \$2.08 billion.

The investment management fee schedule is available in Form ADV 2 as follows: 0.70% on the first \$10 million, 0.60% on the next \$20 million and 0.50% on the balance. Prior to 31 December 2012, this portfolio was known as the Large Cap Growth Equity Portfolio.

**Composite Note:** In 2011, 15 accounts were moved from individual separate accounts to a model portfolio platform. As a result, these 15 accounts are no longer reported in this composite, although they still pay Sawgrass a fee for Diversified Large Growth management.

**Benchmark Index Definition:** The Russell 1000 Growth index measures the performance of the large-cap growth segment of the U.S. equity universe.
